Leaders are people who go their own way without caring, or even looking to see, whether anyone is following them. “Leadership qualities” are not the qualities that enable people to attract followers, but those that enable them to do without them. They include, at the very least, courage, endurance, patience, humor, flexibility, resourcefulness, stubbornness, a keen sense of reality, and the ability to keep a cool and clear head, even when things are going badly. True leaders, in short, do not make people into followers, but into other leaders. John Holt

I’ve noticed a fascinating phenomenon in my thirty years of teaching: schools and schooling are increasingly irrelevant to the great enterprises of the planet. No one believes anymore that scientists are trained in science classes or politicians in civics classes or poets in English classes. There are as many approaches to unschooling as there are people, by design. A child is supported to read when ready and interested, not on another’s timetable, for example. Kytka Hilmar-Jezek
